## Introduction

Beginner in web development focused on frontend React, looking to find a job as a junior frontend developer. In the last six months, I have spent time self-learning by completing courses.

I consider myself a flexible person who is able to work under stressful conditions. I am creative and a positive thinker. My demeanor is congenial, and I enjoy working with people. I prefer challenges and have no fear of new things and tasks. I am keen on meeting new people and experiencing different cultures.

## Experience

09/2023 - until now

### Frontend React Developer

Samostatná činnosť

I have completed the course on Udemy, The Complete Web Development Bootcamp. In this course, I have learned the following technologies:
